How to Assemble a Kool Cow Shade

STEP 1: Screw the tower lifting screw on to the top of the tower.

STEP 2: Raise the tower up, align the holes and bolt it upright.

STEP 3: Slide the main shade arms in to the tower arm slots.

STEP 4: Bolt the brace arms on.

How to Assemble a Kool Cow Shade

STEP 5: Set the rolled tarp in the center and let it drape over each side.

STEP 6: Take one corner, loop a tightening strap through and drive to the end of one arm. Put the strap through the ratchet slot and tighten. Repeat for all corners.

STEP 7: Drive underneath and tighten each strap to the arm to help prevent flapping and tearing.
